exposing media bias in Thailand

Jane Burgermeister : How swine flu (H1N1) was spread by Baxter

i
Rate This

The scale of my charges is monumental, in the sense that … US government, pharmaceutical companies, banking cartels are operating together to push forward this MASS MURDER program under the guise of offering people a vaccinations.. to kill people – they don't have to vaccinate everybody, they just need to vaccinate ENOUGH people to unleash this very virulent pandemic… the reason why people are mystified is because Mass Media consistently deflects attention from these crucial facts or put the spin on them to mislead people

- Jane Bürgermeister

well, with the "Yellow" and "Red" and all other rainbow colors (white, black, blue, green – what other colors of T-shirts were used already ?) eventually fading away and thus Thai MSM getting bored with all that staff – naturally there is a need to find something to replace the focus of **mass Propaganda**…

the Swine flu **Pharmageddon** (http://antipadshist.wordpress.com/2009/10/29/pharmageddon-more-facts-about-swine-flu-vaccines/) **agiotage** (http://antipadshist.wordpress.com/2009/10/28/swine-flue-h1n1-agiotage-in-thailand-vs-in-the-world/) continues, and so people's awareness of this whole **hoax / fraud** and their efforts to expose it as it is, as well as inform others about the so called "pandemic" and DANGERS of the so called "vaccine" for alleged "prevention" of the spreading of this virus. here is a very interesting interview with a lady named **Jane Bürgermeister …**

person who exposed Baxter

medical investigative journalist and the owner of the website **The Flu Case** (http://www.theflucase.com/) (**highly recommended!** it has many details as well as regular updates of the developments about this "swine flu pandemic" affair around the world) who has filed the suit against Austrian pharma company Baxter

so, here is the video where she gives an interview in person, on Sep 9 2009:

(on **this page** (http://www.theflucase.com/index.php?option=com_content&view=article&id=371&Itemid=101&lang=en) there are Links to the same video with subtitles in Spanish, French, Italian;

also there are many other videos with her, practically the complete collection)

she talks about how Mainstream Media (MSM), which is controlled by giant media corporations, continues either to keep quite about the TRUTHS about "swine flu pandemic" and cover up the true facts, about the necessity of civil resistance, about her suit case against Baxter and how officials abstract the investigations,

Baxter International *research facility in Orth-Donau, Austria,* ***sent a quantity of human H3N2 viral material to 18 European laboratories****.*

Such a supply of experimental material would have been totally normal – except that in this instance the H3N2 had been somehow contaminated with live H5N1… the far morelethal Avian Flu.

As a medical editor, Jane immediately realized the import of what had happened – and what had nearly happened – and raised the alarm. But ***no-one in the Austrian media was interested****. She then took matters into her own hands and filed legal charges against those who she considered the perpetrators to be.*

Very soon after, ***Jane was dismissed from her job without explanation****. Undeterred, she sought support on the internet and continued her campaign. In the months since then she has attracted committed followers – and critics – all over the world.* ***She is not alone in suspecting that there exists a literally diabolical plan which is nothing less than the genocide of potentially hundreds of millions of people worldwide****.*

so, what is basically going on is :

1) huge Pharma companies and magnates associated with this industry, who practically and literally control the whole drugs business all over the world, have already designed a certain plan – at very least, to make a huge profits on the so called "vaccines";

2) due to their huge influence (according to some US congressmen, Pharma companies have the BIGGEST lobby in US gov. !) they were able to secure very lucrative deals for supplying HUGE number of these "vaccines";

3) and since in modern age the information is more easily available – people have started to do fact checking and then alerting public about the REALITY of the so called alleged "pandemic" and about the danger of "vaccines";

4) naturally, since it is a HUGE business (medical drugs products are considered perhaps the LARGEST, only after the trade of weapons and narcotics !) and because the people who are involved in this business also have connections with Giant Media corporations and "banksters" – naturally the whole fear mongering campaign has started – to scare general population (the "***sheeple*** (http://www.urbandictionary.com/define.php?term=sheeple)") into meek compliance and submissive acceptance of the so called "vaccines" !

and notice that Jane at 37:53-38:10 mentioning about Baxter's and other companies' plans to put into people a tracking "nano-chips" !

this is mentioned in many other places now, as about VeriChip corp. announcement to produce these chips.

and we can clearly observe this gigantic propaganda campaign continuing in Thailand, raging at full speed and scale, here are the recent articles :

New Plant needed for flu virus production (http://www.nationmultimedia.com/search/read.php?newsid=30114992)

October 22, 2009

A ***budget of Bt300-million*** *is needed to build a new plant to produce vaccine for the type-A(H1N1) flu virus,*

Government Pharmaceutical Organisation (GP0) president Wichai Chokewiwat said yesterday…

Two million doses of "live vaccine" will be imported*, half to be received on December 3 and the remainder by January 3*

Education Ministry to implement flu prevention measures in schools (http://www.nationmultimedia.com/search/read.php?newsid=30115258)

October 26, 2009

2 million people expected to contract A H1N1 flu in 2 months (http://www.nationmultimedia.com/search/read.php?newsid=30115334)

October 27, 2009

About 70 per cent of infected people will not show symptom

[huh? so, in other words, "you should better take a vaccine anyway" ? o^O]

while 30 per cent will have influenza like illness and 20 per cent will need treatment at hospital…

such a huge numbers are intentionally used to increase the fear ! notice that so coincidentally, **the number of ALREADY ORDERED "vaccines" and the estimated number of infected people is … THE SAME !** ;) a mere coincidence or rather a PLAN ?! I'm inclined to believe the latter. that perfectly explains this DEMAGOGUERY that "70% will not show symptoms" – because the ORDER IS ALREADY MADE and PAID for 2 mln doses, therefore now the concerned guys are doing everything possible to ensure that there are enough "***sheeple***" to scam into compliance and to convinced them to take those "vaccines" ! perhaps similar methods would be adopted eventually as in the West: rumored mandatory vaccination, strict tracking of those non-compliant, etc. well, Thailand already has a very good facilities to enforce all such fascist staff, great PROPAGANDA machine at full swing to employ, and a long history of such restriction of civil liberties.

Flu plan despite fall in infections (http://www.nationmultimedia.com/search/read.php?newsid=30115289)

October 27, 2009

The Education Ministry will implement three strategies to screen students, watch for diseases and combine their efforts to prevent further outbreaks of the type A H1N1 flu at schools during the new semester and over winter, a senior official said yesterday.

Two million at risk of virus (http://www.nationmultimedia.com/search/read.php?newsid=30115359)

October 28, 2009

About 70 per cent of infected people would not show any symptoms*. About 30 per cent will have* ***influenza-like*** *illness and 20 per cent will need to undergo treatment in a hospital. "We have to educate people urgently about preventing the infection and health promotion," senior health expert at the Department of Disease Control, Dr Kamnuan Ungchoosak, said.*

again, there is clearly evident demagoguery "70% will not show symptoms" – then hey, what this whole talk is all about?! unless of course the gov. wants to convince the "***sheeple***" to take those "vaccines" !

by the way, notice the interesting, seemingly insignificant word "***influenza-like***" ! this trick is used all around the world, especially in the US – to FALSIFY the REAL number of those actually infected by swine flu (H1N1) ! there are a large number of evidences now exposed in US that often and at large, CDC and WHO use this term too loosely – and that there are no evidences whatsoever about ACTUAL medical (lab) examinations and confirmation of all those people included into those inflated numbers of those who allegedly has contracted the ACTUAL H1N1 virus ! instead, this sort of loose term is used as "***influenza-like***" ! which sort of plays on person's subconsciousness : "WHAT IF really it is an H1N1 what I've got?!" this sort of a oh so subtle trick is what probably will play a LARGEST role in convincing majority of people to agree for vaccination. and we can see – HOW POWERFUL the propaganda and demagoguery tricks can be !

here Dr. Barbara Fisher elaborates on this misleading phrase "***influenza-like***" (of "flu-like"), according to her, with reference to REAL STUDY of CDC data, ONLY 20% of all those cases are actual H1Ni – and other are some other reasons, often not even related to any kind of flu at all :

Swine Flu Overestimated !

(at 1:30 she starts to talk about the **actual numbers**)

so, as you can see, Thai MSM eagerly and compliantly sing to the tune of all the "authorities"!

(who, I am sure, are brainless morons following the orders, not even trying to do facts checking)
