OPEN LETTER TO UBM CHAIRWOMAN, HELEN ALEXANDER GIVES NOTICE OF VIOLATIONS OF FIRST AMENDEMENT RIGHTS AND FREEDOM OF THE PRESS PURSUANT TO "THE PANDEMIC AND ALL-HAZARDS PREPAREDNESS ACT;" THE SHERMAN ANTI-TRUST ACT, AND PROHIBITIONS ON CONSPIRACY TO DEPRIVE CITIZENS' RIGHTS UNDER EMERGENCY CONDITIONS RISKING U.S. NATIONAL SECURITY BY SEDITION AND CONSUMER FRAUD. [INTER ALIA, TITLE 48 USC 1985 AND TITLE 18, U.S.C., § 241 AND 242; 18 U.S.C.S. § 1962)].

Dear Chairman of the Board Alexander:

PARADIGI

ireach&gclid=CO-ou8KJrsACFZCUfgodHooAPQ) and iREACH officials under your authority, claimed to be compelled by Google, Inc. censorship policy to block the dissemination of an important, arguably urgent Press Release (the "Release") concerning the Ebola virus "emergency" linked to the rioting in Liberia. Initial requests to publish said Release were arranged with iREACH (https://ireach.prnewswire.com/Home.aspx?tc=SEM-GGL-PPC-US-SEER_Brand-iReach-ireach&gclid=CO-ou8KJrsACFZCUfgodHooAPQ) personnel through my business partner, Sherri Kane. The title of the Release is, "Another Ebola Problem Solved: ' Natural Source ' Found Generates Racism (http://www.waronwethepeople.com/another-ebola-problem-solved-natural-source-found/)." The Release subtitle stated: "Another Ebola Problem Solved by Dr. Horowitz and Sherri Kane Evidencing the ' Natural Source ' of the Outbreak is Not in Fruit Bats, but in Commercial Interests Fueling Fears, Black Hate, and War Economies." Editors at iREACH declined to disseminate the evidence-based publication submitted with proper attributions following repeated appeals pursuant to the legitimacy and urgency of the statements made in said Release that are neither false, libelous, or designed for purposes of sedition.

To the contrary, the Release (http://www.waronwethepeople.com/another-ebola-problem-solved-natural-source-found/) challenges the U.S. Centers for Disease Control and Prevention (CDC) and World Health Organization (WHO) as being seditiously influenced by pharmaceutical industry special interests to commit:

a) scientific and consumer fraud;

b) unfair competition and Sherman Anti-Trust Act violations favoring drug companies;

c) treasonous violations of 18 U.S. Code § 2381 (http://www.law.cornell.edu/uscode/text/18/2381) and 18 U.S. Code § 2384 (http://www.law.cornell.edu/uscode/text/18/2384) prohibiting sedition and insurrection against common sense and scientific evidence vital to the administration of U.S. Government policies pursuant to emergency responses to Ebola; and

d) monopolistic violations of Section 405 of 42 USC 201, of the "COLLABORATION AND COORDINATION" requirements of the PANDEMIC AND ALL-HAZARDS PREPAREDNESS ACT (http://www.phe.gov/Preparedness/legal/pahpa/pages/default.aspx) of the 109th Congress, 2006.

This Complaint addresses these specified unlawful acts that are aiding-and-abetting drug companies affiliated with your company's major share-holders and Board Members, acting corruptly to deceive people globally, including citizens and government decision-makers in the United States, placing people's lives at risk pursuant to the "international emergency" announced by the WHO and CDC on August 8, 2014, to stem the spread of Ebola.

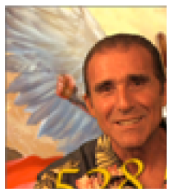
THE "528 I



NOTICE TO CEASE and DESIST CENSORSHIP of said News Release, and to Mitigate Damages by Distributing Said Release in Accordance with Your Usual and Customary Consumer Service Agreement. Said NOTICE IS HEREBY GIVEN TO COMPEL YOUR COMPLIANCE WITH THE LAWS OF THE UNITED STATES OF AMERICA.

A. ALLEGATIONS OF VIOLATIONS:

A-1. By said acts, iREACH and PRNewswire officials have violated the “good faith” of your governmental license(s) as Corporation(s) doing business in the United States.

A-2. By this Notice, Demand is made upon your companies, officials, and agents to enforce the terms of your license and contract(s), under laws established by the U.S. Constitution, most importantly the First and Fourteenth Amendments, the Sherman Anti-Trust Act (http://www.law.cornell.edu/wex/sherman_antitrust_act) , and Section 405(v) of The Pandemic and All-Hazards Preparedness Ac (http://www.phe.gov/Preparedness/legal/pahpa/pages/default.aspx) t of 2006, or otherwise face a multi-million dollar lawsuit to enjoin your illegal discriminatory censorship and disservice to people worldwide.

A-3. By this Notice and Demand, you are ordered to serve the public’s interest, free speech, and press freedoms, by disseminating said emergency-related Release (http://www.waronwethepeople.com/another-ebola-problem-solved-natural-source-found/), and Cease and Desist discriminatorily censoring said scientific evidence-based news, analysis, commentary, and opinion that encourages urgent and neglected Public Debate and Scientific Discourse that has been grossly and outrageously evaded by leading members of the media disserving intelligence gathering and decision making risking public health and safety, claiming lives unnecessarily, and subverting U.S. Government policies and decision-making, pursuant to:

a) the CDC (http://www.cdc.gov/) , an esteemed American institution, has become seditiously and treasonously corrupted by conflicting corporate and financial interests. These concealed special interests now threaten public health and safety, and the administration of emergency pandemic response through the U.S. National Security Agency and allied departments in Government and industry, subverted by dishonest,and inaccurate intelligence being exclusively distributed by your companies, Google, and the corporate media in general, to the detriment of emergency medical response planning upon which people’s health and safety depend.

About Zika | I
(http://www.h
mainstream-r

Purportedly, our governors are under oath to protect citizens' lives, liberties, happiness, security, and property, including "intellectual property" in the wake of growing pandemic threats. The Release pertains to the high probability that the Ebola outbreak has been contrived for commercial gain by your affiliates/investors/advertisers aiding-and-abetting a pharmaceutical industry conspiracy to commit genocide through its covert racketeering enterprise. Viewed in this light, your Censorship serves as a seditious "Protection Racket" concealing intelligence that is critical for civil process and emergency response to Ebola.

CLICK TO VIEW MORE GOOGLE/YOUTUBE CRIMES

b) The PRNewswire/iREACH/Google, Inc. Censorship Policy (https://ireach.prnewswire.com/faq.aspx#159007985) aids-and-abets consumer fraud most transparently, benefiting exclusively drug companies and medical emergency response commerce that profits said concealed special interests and expands markets for exclusively costly and risky vaccines and pharmaceuticals at the expense of frightened and damaged people and free market competition. This sedition compels, for instance, media-frenzied taxpayers to pay for " fast tracked" vaccines approved by special interest-influenced agencies and government officials, or otherwise face death and diminished quality of life. This is a form of *extortion* by social persuasion—mass-mediated mind manipulation—and is unlawful, treasonous, seditious, and intolerable.

Your companies' acts of censorship in recent days make your officials complicit in said conspiracy to put down the Government of the United States and/or prevent, hinder, or delay the execution of federal laws by your force of prejudicial persuasion (i.e., propaganda) and discriminatory media Censorship, by which you seize, take, or possess the minds of citizens and legislators, the life blood and intellectual property of the United States of America, its greatest strength in citizens and legislators, contrary to Seditious Conspiracy

law, 18 U.S. Code § 2384 (http://www.law.cornell.edu/uscode/text/18/2384) .

c) Proper treatment and prevention of Ebola infections may result from confirming its legitimate source. In fact, the scientific evidence I compiled and authorized to be freely distributed for urgently needed public awareness, discourse, and scientific debate, indicates Ebola is a laboratory creation—a man-made biological and commercial weapon—not a natural virus periodically out-breaking from "fruit bats"—the purported "natural reservoir."

Censored evidence for this thesis, albeit scandalous, demands scientific scrutiny and open public debate; otherwise, said Censorship is grossly damaging and effectively treasonous, comparable to an act of war. This is particularly so because American institutions and our National Security Agencies depend on accurate confirmed intelligence, not commercial propaganda exclusively available through your news services censoring alternative views and evidence-based science.

In this regard, epidemiologists worldwide are now engaged in tracking cases to prevent the Ebola virus from spreading. They deserve to know why scientific data, debate, and public information expressing independent, "alternative," or "minority" views of the source of the infection are being censored by the media and institutions of purported "higher learning," effectively reinforcing and sustaining an illegal pharmaceutical industry monopoly over the intelligence and emergency response pursuant Ebola—a VERY DANGEROUS CIRCUMSTANCE placing lives at risk.

(http://www.npr.org/2014/08/20/341958704/in-liberia-an-ebola-

quarantine-descends-into-riots)

CLICK TO READ NPR REPORT ON EBOLA RIOTING

On August 20, 2014, National Public Radio reported rioting in Liberia (http://www.npr.org/2014/08/20/341958704/in-liberia-an-ebola-quarantine-descends-into-riots) at an Ebola quarantine facility due mostly to media censorship and ignorant or misinformed people feeling threatened, angry, and frustrated that they are not being giving adequate information or protection(s). This alone provides good cause for disseminating, not censoring, our Release; or otherwise makes UBM, plc. et. al., complicit in, and liable for, inciting deadly and destructive social unrest and life-threatening violence—the last thing reasonable people want during an infectious disease emergency.

d) Your officials, decision-makers, agents, and news outlets complicit in said Censorship places everyone's lives at risk. Your license does not afford you the right to commit consumer fraud by omitting, neglecting, misrepresenting, or further censoring concealed U.S. Government documents—National Institutes of Health contracts (hereto attached) detailing the virology and highest probability that Ebola exclusively outbreaks militarily and/or pharmaceutically. Censoring this honest truth and reputable science is akin to *evidence tampering* and *scientific fraud* in the commission of *genocide*.

Your editors routinely approve "negative news reports," and social engineering messages called "business advertisements," that frighten, confuse, and alienate or divide people, inciting violence and terrorism as evidenced by the aforementioned NPR report. By alarming the public using false and misleading information, omitting and misrepresenting irrefutable facts such as the Contracts I have attached hereto and cited below, you enable special interests and pharmaceutical agents infiltrating the U.S. Government, especially the CDC, FDA, the National Institute for Allergies and Infectious Diseases (NIAID), and Defense Advanced Research Projects Agency (DARPA), to act seditiously and treasonously on behalf of their concealed commercial interests. The obvious outcome abuses the "international emergency" to commit consumer fraud and commercial genocide. (CLICK HERE (http://www.waronwethepeople.com/wp-content/uploads/2014/08/Ebola-Censorship-Documents.pdf) to view Contracts and Ebola Censorship Documents (http://www.waronwethepeople.com/wp-content/uploads/2014/08/Ebola-Censorship-Documents.pdf))

Your editors and officials demonstrate bias and discriminatory animus in restricting coverage of these urgent matters, exclusively advertising advances in vaccines and drugs while neglecting safer and less costly alternatives and prevention strategies.

At the same time, they implant racist innuendoes in the minds of people everywhere, inferring that life threatening plaques nearly always emerge from Africa vis-à-vis "Black People," versus providing equal coverage of evidenced-based science that refutes this racist messaging and riot-inciting disinformation.

In essence, your companies are complicit in acts of genocide, as protection racketeers for the drug cartel's diversionary abuse of the media and people's minds favoring discriminatory beliefs, attitudes, and publishing policies as established by Google (according to your officials' e-mail of Aug. 20, 2014); aiding-and-abetting a pharmaceutical monopoly that contrives outbreaks and kills people to increase " market share"—a racketeering enterprise reflecting outrageous criminal psychopathology.

e) Your companies' actions are consistent with, and complicit in, said Seditious Conspiracy that degrades the quality and integrity of the U.S. Government and its agents and agencies positioned internationally, undermining respect for our Nation's leadership in the public's mind, damaging world health and emergency medicine.

Such interference and obstruction of U.S. Government operations through the dissemination false information, and censoring legitimate evidence-based science and discourse, are consistent with (in this Ebola case) aiding-and-abetting biological warfare and enemies-of-state by concealments, treason, and complicity in mass murder.

More specifically, your social influence created by said Censorship and pro-drug bias violates the public's trust and numerous laws, among them, 18 U.S. Code § 2381 (http://www.law.cornell.edu/uscode/text/18/2381) (for Treason), and 18 U.S. Code § 2384 (http://www.law.cornell.edu/uscode/text/18/2384) (Seditious conspiracy), by reason of said insurrection against common sense and law enforcement in the administration of U.S. Government policies. Said Censorship and institutionalized bias obstructs legitimate emergency response actions, including identifying the source of the current Ebola Zaire outbreak that is historically linked to Ebola's progenitor—the Marburg virus. This knowledge might mitigate, if not terminate, this ongoing and recurring Ebola threat.

I have attached irrefutable evidence identifying the origin of Ebola's progenitor (i.e., the Marburg virus) sourcing from within the drug and biological weapons industry. This suppressed scientific intelligence requires distribution for urgently needed public debate and scientific scrutiny. Remediation depends on solving or refuting the purported "mystery" of Ebola's origin; and the attached evidence best explains

how and why intermittent “outbreaks” have occurred in different countries separated by large distances following many years of “ dormancy,” indicating the most obvious, logical, yet grossly neglected reason for Ebola’s return is commercial crime—intentional “ releases”—that your company’s censorship of our investigations and findings makes you Party to said crime and conspiracy.

(http://vimeo.com/47835114)

CLICK TO VIEW MERCK’S VACCINE CHIEF ADMIT AIDS SOURCE

e) Your companies’ actions are consistent with complicity in a Seditious Conspiracy that degrades the quality and integrity of the U.S. Government and its agents and agencies positioned internationally, undermining respect for our Nation’s leadership and damaging world health, emergency preparedness, and reliable medicine. Such interference and obstruction of U.S. Government operations through the dissemination false information, and censoring legitimate evidence-based science and discourse, are *consistent with acts of concealing biological warfare, aiding-and-abetting enemies-of-state, committing treason, and mass murder*.

More specifically, your social influence created by said Censorship and pro-drug bias violates the public’s trust and numerous laws, among them, 18 U.S. Code § 2381 (for Treason), and 18 U.S. Code § 2384 (Seditious conspiracy), by reason of said insurrection against common sense and law enforcement in the administration of U.S. Government policies. Said Censorship and institutionalized bias obstructs legitimate emergency response actions, including identifying the source of the current Ebola Zaire outbreak that is historically linked to Ebola’s progenitor—the Marburg virus. This knowledge might mitigate, if not terminate, this ongoing and recurring threat.

I have attached irrefutable evidence identifying the origin of Ebola’s progenitor (i.e., the Marburg virus) sourcing from within the drug and biological weapons industry. Remediation depends on this intelligence being disseminated to solve or refute the purported “mystery” of Ebola’s origin. The attached evidence best explains how and why intermittent “outbreaks” have occurred in different countries separated by large distances following many years of dormancy. This intelligence provides probable cause for the news media internationally to investigate and confirm the most obvious, logical, yet grossly neglected reason for Ebola’s return, that is, commercial crime by intentional “releases.

(http://vimeo.com/103031859)

CLICK TO VIEW SPECIAL REPORT ON EBOLA CRIMES

The Contracts provided here present clear and convincing evidence pinpointing the most reasonable, logical, and scientifically-supported conclusion that the emergence of the first Ebola Zaire virus in 1976, was preceded in 1967 by a shipment of 500 contaminated animals delivered to three (3) vaccine production labs in Europe triggering the Marburg outbreak, courtesy of Litton Bionetics's animal colony operations in Africa. These facts are corroborated in statements made by the Merck drug company's vaccine division chief, Dr. Maurice Hilleman archived at the National Library of Medicine. Attention is rightfully placed within public records issued by the National Institutes of Health/National Cancer Institute supplementing their Litton Bionetics Contract No. NIH-71-2025 and Merck and Company, Inc. Contract No. NIH-71-2059. *Concealing this intelligence from health officials and scientists is a form of evidence tampering, scientific fraud and high crime.*

I link you HERE (http://vimeo.com/47835114) to said National Library of Medicine audio archive of the late Dr. Hilleman admitting that he brought the AIDS virus into North America in contaminated monkeys (and chimpanzees) shipped by Litton Bionetics to the Merck drug company. This segment of my documentary film *In Lies We Trust: The CIA, Hollywood & Bioterrism (http://www.inlieswetrust.com)* , received nearly one million views on my YouTube channel before Google/YouTube censored my account on-or-about August 1, 2014, shortly before the WHO declared the "international Ebola emergency." Pharmaceutical industry agents contrived complaints, and then Google/YouTube officials fraudulent claimed "copyright infringements" required the suspension of my upload privileges and broadcasting channel—a ludicrous and actionable contrivance given Fair Usage Doctrine and the urgency of these matters.

Under Public Law 109-417, for NATIONAL PREPAREDNESS AND [EMERGENCY INFECTIOUS DISEASE] RESPONSE (http://www.phe.gov/Preparedness/legal/pahpa/pages/default.aspx) , your "COLLABORATION AND COORDINATION" between Google/YouTube/PRNewswire/iREACH and drug companies, to mutually profit by disseminating propaganda in unfair trade at the expense of industry competitors and people's health, safety, security, and quality of life, makes UBM, plc. complicit in, and comparatively liable for, anti-trust violations for which you, as Chairwoman, shall be held accountable in a court of law if you neglect this Notice and Demand to cease breaking the aforementioned laws.

Section 405(v) of The Pandemic and All-Hazards Preparedness Act certifies said liability for anti-trust claims, for "[e]ntering into any agreement or engaging in any other conduct restricting, requiring, or otherwise involving the production of a product, process, or service that is not expressly exempted from the antitrust laws under subsection (a)(4)."

For your information, said acts of sedition and anti-trust violations also violate my personal investments and companies' rights to compete in markets against drug companies. In my case, as an expert in "complementary and alternative medicine" who has brought to market far safer, less costly, and highly effective alternatives to vaccines and antibiotics, including an enhanced silver hydrosol branded OxySilver (http://www.oxysilver.com) TM, your companies' Censorship and complicity in said conspiracy is damaging and actionable.

Consequently, you have until Wednesday, August 27, 2014, to Order your editors to disseminate said Press Release, or you will be served with a lawsuit most timely in the proper venue and jurisdiction.

Sincerely yours,

(http://www.waronwethepeople.com/wp-content/uploads/2014/08/Lens-SignatureSmall.jpg)
